

STICKER ACTIVITY: CONSENT AWARENESS

Stickers can be a great way to promote a message. You can stick them anywhere, including water bottles, phones, and laptops! In this activity, you are going to create a sticker about the concept/meaning of consent and why it is important.

You may want to use the Staying Safer Around Substances and Sexual Activity Infographic to help inform your sticker!

Below are some examples of stickers that carry an important message to help guide you. Be sure to consider the size and shape of your sticker, as well as any images or fonts and colours.
