

Sharing Eye Drops

Amy is sitting on the bus with her friend Lee. Amy notices that Lee takes a bottle of eye drops out of their backpack. Amy asks Lee what the eye drops are for. Lee says that they are for allergies. Amy's eyes have been itchy lately and she wonders if using some of Lee's eye drops will help. Lee offers them some eye drops to try. What should Amy do? Use the FACE Decision-Making Model to help them decide.

Complete the following questions to help you make your decision.

Feel
